

WESTCHESTER-PUTNAM WORKFORCE DEVELOPMENT BOARD

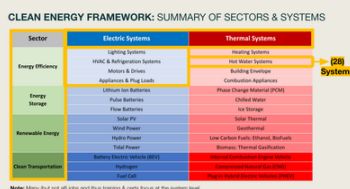

Clean Energy Jobs Workshop Digital Toolkit

Presented on March 26-27, 2026

Resource

Description

[TGL Clean Energy Framework](#)

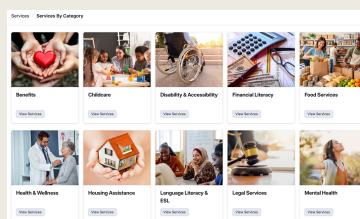

Framework that organizes the landscape of clean energy into clear sectors, segments & systems.

[NY Clean Energy Certification & Workforce Provider Database](#)

Source	Accounting Organization	System	System
ENR E&E Type 3	ENR	Energy Efficiency	ENR
ENR E&E	ENR	Energy Efficiency	ENR
NOTE: Results from	ENR	Energy Efficiency	ENR
ACC: Annual Certification in Green Building Systems	ACC	Energy Efficiency	ACC
ENR E&E Type 2	ENR	Energy Efficiency	ENR
OPIC Mechanical	OPIC	Energy Efficiency	OPIC
ACC: STECH	ACC	Energy Efficiency	ACC
NOTE: Results from	ENR	Energy Efficiency	ENR
ENR E&E Universal	ENR	Energy Efficiency	ENR
NOTE: Results from	ENR	Energy Efficiency	ENR

Database organizes certifications by sector, segment, and system, and includes details on accrediting bodies, relevant technologies, and training providers.

[NY Wraparound Services Database](#)

Consolidated database where job seekers and providers can search by wraparound service type, borough, or organization.

[Clean Energy Compensation](#)

Green Jobs	Sector	Description	Alternative Name For...	Education & Training
1 - New Green Occupations	Energy Efficiency	Energy Efficiency	Energy Efficiency	Energy Efficiency
2 - Changing Old Occupations	Energy Efficiency	Energy Efficiency	Energy Efficiency	Energy Efficiency

The compensation database is a tool to explore wages and salaries across different green jobs, including clean energy roles.

Clean Energy Jobseeker Guidance Checklist

Checklist

Job Interest

Are you looking for a job?

- **If No:** Refer to other supportive services
- **If Yes:** Continue to the next step

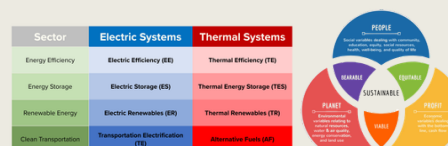

- [TGL's Wraparound Database](#)
- [United Way 211 Helpline](#)
- [NYS My Benefits](#)

Clean Energy Interest

Are you interested in a job in clean energy?

- **If Maybe:** Introduce clean energy awareness
- **If No:** Route to other industries
- **If Yes:** Continue to the next step

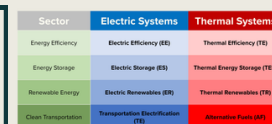

Awareness

Sector Awareness

Do you know which clean energy sector you want to work in?

- **If No:** Introduce the sectors
- **If Yes:** Continue to the next step

Sectors

Role Clarity

Do you know what role you are looking for?

- **If No:** Introduce career pathways
- **If Yes:** Continue to the next step

CLEAN ENERGY JOBS - CAREER TRACKS: ROLES

Clean Energy
Career Pathways

Readiness

Do you have training / certifications / experience?

- **If No:** Introduce training & certifications
- **If Yes:** Connect to employers & opportunities

Table showing a list of certifications and training programs, including details like title, duration, and status.

[Certification & Training Database](#)

Key Frameworks

CLEAN ENERGY FRAMEWORK: OVERVIEW OF SEGMENTS

Sector	Electric Systems	Thermal Systems
Energy Efficiency	Electric Efficiency (EE)	Thermal Efficiency (TE)
Energy Storage	Electric Storage (ES)	Thermal Energy Storage (TES)
Renewable Energy	Electric Renewables (ER)	Thermal Renewables (TR)
Clean Transportation	Transportation Electrification (TE)	Alternative Fuels (AF)

(8) Segments

(4) Sectors

Note: Say the Vertical name first, then Sector second (i.e. Electrical Efficiency, Thermal Renewables)

CLEAN ENERGY FRAMEWORK: SUMMARY OF SECTORS & SYSTEMS

Sector	Electric Systems	Thermal Systems
Energy Efficiency	Lighting Systems	Heating Systems
	HVAC & Refrigeration Systems	Hot Water Systems
	Motors & Drives	Building Envelope
	Appliances & Plug Loads	Combustion Appliances
Energy Storage	Lithium Ion Batteries	Phase Change Material (PCM)
	Pulse Batteries	Chilled Water
	Flow Batteries	Ice Storage
Renewable Energy	Solar PV	Solar Thermal
	Wind Power	Geothermal
	Hydro Power	Low Carbon Fuels: Ethanol, BioFuels
	Tidal Power	Biomass: Thermal Gasification
Clean Transportation	Battery Electric Vehicle (BEV)	Internal Combustion Engine Vehicle
	Hydrogen	Compressed Natural Gas (CNG)
	Fuel Cell	Plug-In Hybrid Electric Vehicles (PHEV)

(28) Systems

Note: Many (but not all) jobs and thus training & certs focus at the system level.

CLEAN ENERGY CERTIFICATIONS: ORGANIZED BY SECTOR, SEGMENT & SYSTEM

Sector	Electric Systems		Thermal Systems	
Energy Efficiency	Lighting	NALMCO: CALT, CSLT, CLMC & CLCP	Building Envelope	BPI: BSP, BA-T, BA-P
		AEE: CLEP		RESNET: HERS Rater, RFI, Auditor & Modeler
	HVAC & Refrigeration	EPA: 608 Type I, II, III & Universal	Heating Systems & DHW	PHIUS: CPHC
		NATE: Ready2Work, Tech & Install		BPI: MFBA, MFBO, IDL & AC&HP
		ACCA: QTech, Residential & Commercial		
ASHRAE BEAP, BEMP, HFD, HBDP & OPMP				
AEE BEP, EEP, REA, CEA, CEM, EBCP, CBCP, CMVP				
Energy Storage	Electric Storage	ACP BESS (micro credentials)	Thermal Storage	TBD
		AEE CESM		
		NABCEP ESIP		
	AEE - Certified Energy Manager (CEM)			
Renewable Energy	Solar PV	NABCEP - Solar PV (Associate, Sales, Design, Inspect, O&M & Install)	Solar Thermal	NABCEP - Solar Heating (Associate, Sales, Design, Inspect, O&M & Install)
		AEE SPVP	Geothermal	NATE - GSHP Loop Installer
	Wind Power	NABCEP - Small Wind (Associate & Installer)		AEE - Certified GeoExchange Designer (CGD)
AEE REP & CSDP				
Clean Transportation	Battery Electric Vehicle (BEV)	ASE AEVS	Internal Combustion Engine	TBD
		ISAE CEVT, AEVS & EVSSS	Compressed Natural Gas	
		EVITP Certification	Plug-In Hybrid Electric	

Note: If you know of credentials that are missing, please let us know, so we can add them

Do not distribute. For instructional purposes only.

Key Frameworks

CLEAN ENERGY JOBS - CAREER TRACKS: ROLES

ROLE/ CATEGORY	Entry- Level 0-1 Yrs	Junior- Level 1-3 Yrs	Associate/ Mid-Level 3-5 Yrs	Senior- Level 5-8 Yrs	Management- Level 8-12 Yrs	Executive- Level 10+ Yrs
SALES & MARKETING	Jr Sales Auditor	Sales Auditors	Sr Salesperson	Sales Manager	Director of BD	Chief Sales Officer
AUDITING & ANALYSIS	Jr Auditor	Energy Auditor	Energy Auditor	Sr Energy Auditor	Energy Audit Project Mgr	Chief Technology Officer
FINANCING & INCENTIVE ADMIN	Incentive Coordinator	Incentive Associate	Incentive Manager	Sr Incentive Manager	Incentive Director	Chief Finance/Admin Officer
PROJECT MGMT	Jr Project Coordinator	Project Coordinator	Project Manager	Sr Project Manager	Project Director	Chief Administrative Officer
DESIGN & ENGINEERING	Engineering Intern	Jr Designer/Engineer	Designer/Engineer	Sr Designer/Engineer	Lead Designer/Engineer	Director of Design / Engineering
CONSTRUCTION & INSTALLATION	Laborer	Assist/Helper	Jr Mechanic/Technician	Mechanic/Technician	Project Manager	Contractor/CEO
QAQC & INSPECTION	Jr Inspector	Inspector	Sr. Inspector	Commissioning Engineer	QAQC Manager	QAQC Director
BUILDING MAINTENANCE	Maintenance Helper	Maintenance Technician	Maintenance Mechanic	Maintenance Manager	Building Superintendent	Owner Property/Real Estate

CLEAN ENERGY JOB AVAILABILITY: COUNTIES-LEVEL VS STATE-LEVEL

Sector	WESTCHESTER & PUTNAM COUNTIES-LEVEL		STATE-LEVEL		Counties % of Statewide Employment	Efficiency: largest # of jobs by far. Storage: smallest sector. Counties-Level jobs represent ~5.6% of all clean energy jobs statewide.
	Overall # Jobs ('23)	Total % Jobs	Overall # Jobs ('24)	Total % Jobs		
Energy Efficiency	7,607	73.9%	135,392	73.3%	5.6%	
Energy Storage	200	1.9%	3,161	1.7%	6.3%	
Renewable Energy	1,734	16.9%	30,722	16.7%	5.6%	
Clean Transportation	756	7.3%	15,261	8.3%	4.9%	
OVERALL	10,297	100%	184,536	100%	5.6%	

Key Frameworks

	Type	Hire at	Certifications	Role Function
 0–50 Employees	Participating Contractors	system level (lowest barriers to entry)	system level	Broad, less specialized roles (ideal for entry-level candidates)
 50–200 Employees	Consultants	system or segment level	segment level	Moderately broad roles; less broad than small contractors
 200–2,000 Employees	Advisors/ Implementation Contractors	segment or sector level	sector level	Broad but structured roles
 2,000+ Employees	ESCOs, REITs, Manufacturers, & Utilities	multi sector level	multi sector level	Highly specialized roles

Assistant HVAC Field Technician

Alternative names: HVAC Helper

What is this job?

You support experienced technicians to **install, maintain, and repair** heating and cooling systems (HVAC) in homes and buildings.

You may work in:

- Homes and apartments
- Multifamily buildings
- Small businesses
- Commercial buildings

Education & Certifications

- High school diploma or GED
- A valid driver's license with a good driving record
- **Required Certifications:** OSHA 30 & EPA 608
- **Optional Certifications:** NATE Certification

Typical Pay Range

\$18 – \$28 per hour, plus benefits

What would you do?

With support from a senior technician, you will:

- Prepare job sites and organize tools and materials
- Assist with installing and repairing HVAC systems
- Assist with equipment testing
- Follow safety guidelines and support quality work

Working Environment

- Spend time in spaces like mechanical rooms, rooftops, and indoor system areas
- Move between different job sites or areas within a building
- Hands-on and physically active, working with tools and equipment
- Ability to drive to job sites across the service territory

Who is this job good for?

- Like working with your hands and staying active
- Curious about how systems and equipment work
- Work well with others and can take direction from a team lead
- Are flexible and comfortable working in different places

Assistant Weatherization Field Technician

Alternative names: Weatherization Helper, Building Envelope Technician, or Insulation Technician

What is this job?

You support experienced technicians **to install upgrades** that help buildings **use less energy**, like insulation and sealing air leaks.

You may work in:

- Homes and apartments
- Multifamily buildings
- Small businesses
- Commercial buildings

Education & Certifications

- High school diploma or GED
- A valid driver's license with a good driving record
- **Required Certifications:** OSHA 30 & EPA 608
- **Optional Certifications:** BPI BSP, BA-T, or Retrofit Installer Technician

Typical Pay Range

\$18 – \$28 per hour, plus benefits

What would you do?

With support from a senior technician, you will:

- Prepare job sites and organize tools and materials
- Assist with energy efficiency upgrades in buildings (like insulation and air sealing)
- Support basic testing and installation checks
- Follow safety guidelines and support quality work

Working Environment

- Work in spaces like basements, attics, and both inside and outside buildings
- Move between different units or areas within a building
- Hands-on and physically active, working with tools and equipment
- Ability to drive to job sites across the service territory

Who is this job good for?

- Like working with your hands and staying active
- Curious about how systems and equipment work
- Work well with others and can take direction from a team lead
- Are flexible and comfortable working in different places

Assistant Hot Water Systems Field Technician

Alternative names: Plumbing Helper, or Hot Water Technician Helper

What is this job?

You help experienced technicians **install and improve hot water systems** and energy-saving upgrades, like efficient water heaters and insulated pipes.

You may work in:

- Homes and apartments
- Multifamily buildings
- Small businesses
- Commercial buildings

Education & Certifications

- High school diploma or GED
- A valid driver's license with a good driving record
- **Required Certifications:** OSHA 30 & EPA 608
- **Optional Certifications:** BPI BSP, BA-T, or Retrofit Installer Technician

Typical Pay Range

\$18 – \$28 per hour, plus benefits

What would you do?

With support from a senior technician, you will:

- Prepare job sites and organize tools and materials
- Assist with installing and upgrading hot water systems like water heaters, pipes, and thermostats
- Support basic testing and installation checks
- Follow safety guidelines and support quality work

Working Environment

- Work in spaces like basements and utility rooms
- Move between different units or areas within a building
- Hands-on and physically active, working with tools and equipment
- Ability to drive to job sites across the service territory

Who is this job good for?

- Like working with your hands and staying active
- Curious about how systems and equipment work
- Work well with others and can take direction from a team lead
- Are flexible and comfortable working in different places

Assistant Lighting Systems Field Technician

Alternative names: Plumbing Helper, or Hot Water Technician Helper

What is this job?

You help experienced technicians **install and improve hot water systems** and energy-saving upgrades, like efficient water heaters and insulated pipes.

You may work in:

- Homes and apartments
- Multifamily buildings
- Small businesses
- Commercial buildings

Education & Certifications

- High school diploma or GED
- A valid driver's license with a good driving record
- **Required Certifications:** OSHA 30 & EPA 608
- **Optional Certifications:** NALMCO CALT

Typical Pay Range

\$18 – \$28 per hour, plus benefits

What would you do?

With support from a senior technician, you will:

- Prepare job sites and organize tools and materials
- Assist with installing and upgrading lighting systems like LED fixtures, panels, and controls
- Support basic testing and installation checks
- Follow safety guidelines and support quality work

Working Environment

- Work in spaces like apartments, offices, common areas, and utility rooms
- Move between different units or areas within a building
- Hands-on and physically active, working with tools and equipment
- Ability to drive to job sites across the service territory

Who is this job good for?

- Like working with your hands and staying active
- Curious about how systems and equipment work
- Work well with others and can take direction from a team lead
- Are flexible and comfortable working in different places
